

Summer Camp 2020

Price List

Registration is on a rolling basis, but there are time-sensitive discounts available. Take advantage of the discounts to secure a spot before we fill up!

Pick one of two ways to register: an [online web form](#) or a [ready-to-fill PDF](#). We'll receive the online web form immediately after you submit. But if you pick the PDF, you'll need to save it to your disk then email it to us. No matter which method, the forms will calculate automatically, and you'll get an invoice to review.

Days per week

5 Full Days	250
5 Half-Days (AM only)	120
5 Half-Days (PM only)	170
4 Full Days	220
4 Half-Days (AM only)	110
4 Half-Days (PM only)	155
3 Full Days	185
3 Half-Days (AM only)	100
3 Half-Days (PM only)	134
2 Full Days	138
2 Half-Days (AM only)	70
2 Half-Days (PM only)	104
1 Full Day	75
1 Half-Day (AM only)	40
1 Half-Day (PM only)	60

Price per week

Discounts:

Early Bird: 10% off if paid in full by 5/18

No registration fee if registered by 5/30

Full 10 weeks: 10% off
5 or more weeks: 5% off

2nd sibling is 10% off
3rd sibling is 20% off

Workshops (add-ons)

Common Core English & Writing	20
Common Core Math	20
Programming (Python or JavaScript)	20
Lego Robotics with coding	20
Drone with coding	20
Robotics with coding	Free
3D Design & Printing	Free

Price per week

FREE for all students:

- Most field trips, with a few exclusions (see the next page for the field trip schedule and some admission fees)

- All transportation to and from field trip sites (we're CDL-licensed and operate our own school buses)

- Classes in Arts & Crafts, Augmented/Virtual Reality, Robotics with Coding, 3D Design and Printing, Chess, Photoshop, Foreign Languages, Sports, and Academic Workbooks

Tentative Field Trip Schedule

Wednesday Field Trips

June 3	Regional Park
June 10	Jungle Island
June 17	Regal Hacienda Cinema
June 24	Chuck E. Cheese
July 1	Pump It Up
July 8	Regional Park
July 15	The Wave
July 22	Jelly Belly Factory Tour
July 29	Boomer's Mini-Golf
August 5	Six Flags

Friday Field Trips

June 5	Earl Anthony's Dublin Bowl
June 12	Blackhawk Museum
June 19	Amazon Fulfillment Center Tour
June 26	Swimming
July 3	<i>Holiday (we are closed)</i>
July 10	USS Hornet Ship Tour
July 17	Chabot Space Center
July 24	Niles Canyon Railway
July 31	Jungle James Animal Adventure
August 7	Water Balloons & Picnic @ Park

Transportation, lunch, and most field trips are free. **The following have admission tickets:**

Bowling	\$4.75
Boomers	\$21
The Jungle	\$14
The Wave	\$14
Swimming	\$3.50

Summer Camp 2020 Program Overview

3 Pillars of Summer Camp

1. Subject Retention & Advancement

Daily practice to retain knowledge and get a head start for the next year.

2. Two Field Trips every week

Trips to parks, aquatic centers, Boomer's Mini-Golf, The Jungle, USS Hornet, Blackhawk Museum, Jelly Belly Factory, Amazon Fulfillment Center, Chabot Science Center, and more—all in our own yellow school bus (yes, we're CDL-licensed!).

3. STEAM + Tech-focused Opportunities + Foreign Languages

Inspiring kids to be innovators, creators, and creatives with our 3D Printing and Design tools, Augmented and Virtual Reality headsets, Programming courses, and more.

To help students get or stay on track moving into the next school year, we offer academic resources to improve aptitudes in Common Core subjects. We reinforce and accelerate CC English through instilling excellent skills in reading comprehension, grammar, vocabulary, and writing. Additionally, we have an exceptional program that prepares students for 2nd to 5th grade CC Math via computational practice, pre-algebra, and word problems. Beyond elementary school math, we equip students to tackle Pre-Algebra, Algebra I and II, and Geometry.

Unique Resources for a Technological World

We also teach Mandarin Chinese, Spanish, and Hindi, where students develop their foreign language proficiencies in speaking, reading, vocabulary usage, and grammar, all taught by native speakers. Additionally, our STEAM curriculum has a heavy emphasis on technology, enabling students to exercise their creative and logical abilities. Using our technological resources, your child can learn about Lego Robotics (programmable legos), 3D Design and Printing, Programming, and Blockchain and Smart Contracts.

Outside of the Summer Camp class offerings, we inject a burst of fun through a variety of recreational activities, sports, and e-sports. Students can play with Discovery Toys Science and undergo scientific exploration, cultivate their artistic side through art and painting, and even create 3D objects using 3D pens. Cooking and outdoor sports are also popular activities, and students can also play with Legos, our Wii, PS3, Microsoft HoloLens, HTC Vive, or Xbox.

Weekly Field Trips

We have two field trips weekly, one each on Wednesday and Friday. They range from the educational to the recreational. On the academic end, we visit the Chabot Space Center and the California Academy of Sciences. We also take students to Boomer's Mini-Golf and Jungle Island, as well as to movie theaters, Earl Anthony's Bowling Alley, barbecues, and water parks. We're CDL-licensed and have our own school buses to chauffeur children around on field trip days—at no extra cost.

Conveniently Located

Young Ivy is located next door to a music studio, a dance studio, and a martial arts dojo. If you'd like your child to be involved in multiple activities outside of our center, let us know what their schedules look like. We provide lunch and snacks free of charge, but students have the option to buy their own food from nearby Raley's, Subway, Taco Bell, Mountain Mike's Pizza, and more.

We're happy you're interested, and we can't wait to hear how your child loves it here.
